

LAZARD

Lazard Frères & Co. LLC Employees' Savings Plan

Invest in your retirement—and yourself—today, with help from the Lazard Frères & Co. LLC Employees' Savings Plan and Fidelity.

YOUR GUIDE TO GETTING STARTED

Invest some of what you earn today for what you plan to accomplish tomorrow.

Dear Employee:

Your Company offers a generous matching contribution*, convenience, and a variety of investment options. Take a look and see what a difference enrolling in the plan could make in achieving your goals.

Benefit from:

Matching contributions*. The Lazard 401(k) Plan helps your contributions grow through a generous employer match—it's like getting "free" money. That's why it makes good financial sense to take advantage of this great benefit today!

Tax savings now. Your pre-tax contributions are deducted from your pay before income taxes are taken out. This means that you can actually lower the amount of current income taxes you pay each period. It could mean more money in your take-home pay versus saving money in a taxable account.

Tax-deferred savings opportunities. You pay no taxes on any pretax earnings until you withdraw them from your account, enabling you to keep more of your money working for you now.

Portability. You can roll over eligible savings from a previous employer into this Plan. You can also take your plan vested account balance with you if you leave the company.

Investment options. You have the flexibility to select from investment options that range from more conservative to more aggressive, making it easy for you to develop a well-diversified investment portfolio.

Online beneficiary. With Fidelity's Online Beneficiaries Service, you can designate your beneficiaries, receive instant online confirmation, and check your beneficiary information virtually any time.

Catch-up contributions. If you make the maximum annual contribution to your plan account, and you are 50 years of age or older during the calendar year, you can make additional "catch-up" contributions on a pre-tax basis (up to \$7,500 in 2023).

Roth contributions. A Roth contribution allows you to make post-tax contributions and take any associated earnings completely tax free at retirement—as long as the distribution is a qualified one.

After-tax contributions. If you would like to contribute to your 401k beyond the IRS limit, you can do so by making after-tax contributions. Similar to Roth contributions, you would pay taxes upfront at your current tax rate. When you withdraw money in the future, you pay only taxes on the value of any investment earnings on your after-tax contributions. However, after-tax contributions can be converted to Roth through the Roth In-Plan Conversion.

Roth In-Plan Conversion. With the 401(k) Roth In-Plan Conversion feature, you have the potential to avoid federal tax on future 401(k) investment earnings by converting your 401(k) pre-tax savings and/or your after-tax taxable earnings to the Roth 401(k) source option.

To learn more about what your plan offers, see "Frequently asked questions about your plan" on the next page.

*Please refer to page 2 for employer match eligibility requirements.

LAZARD

Enroll in your plan and invest in yourself today.

Frequently asked questions about your plan.

Here are answers to questions you may have about the key features, benefits, and rules of your plan.

When can I enroll in the Plan?

There is no waiting period. You can enroll in the Plan at any time.

How do I enroll in the Plan?

Enroll online at any time, or by calling the Investment Service Center at 866-602-0418.

What is the Roth contribution option?

A Roth contribution to your retirement savings plan allows you to make post-tax contributions and take any associated earnings completely tax free at retirement - as long as the distribution is a qualified one. A qualified distribution, in this case, is one that is taken at least five tax years after your first Roth 401(k) contribution and after you have attained age 59½, become disabled or die. Through automatic payroll deduction, you can contribute between 1% and 75% of your eligible pay as designated Roth contributions, up to the annual IRS dollar limits.

Find more information online within the "Library" section of NetBenefits®.

What is the after-tax contribution option?

As an added benefit, there is the after-tax contribution option eligible in the Plan. Like Roth contributions, you also pay taxes upfront at your current tax rate. When you withdraw money in the future, you pay taxes on the value of any investment earnings on your after-tax contributions. However, after-tax contributions can be converted to Roth through the Roth in-plan conversion, giving you the potential to build more tax-free retirement income. For 2023, there is a Plan limit of \$30,300 for after-tax contributions. This limit is adjusted each year based on IRS limits and Plan testing.

After-tax contributions are not eligible for the company match.

What is the Roth in-plan conversion?

Through the 401(k) Roth in-plan conversion feature, you have the potential to avoid federal tax on future 401(k) investment earnings by converting your 401(k) pre-tax savings and/or your after-tax taxable earnings to the Roth 401(k) source option. If you convert your after-tax balance to Roth, you will owe taxes only on earnings accumulated. If you convert your pre-tax balance to Roth, you will owe taxes on both earnings and contributions. Either way, distributions from your Roth 401(k) source generally would be tax-free after age 59½ if your Roth source has existed for at least five years. With a 401(k) Roth in-plan conversion, you can directly convert pre-tax monies to Roth monies within your 401(k) Plan at any time.

How much can I contribute?

Through automatic payroll deduction, you may contribute up to 75% of your eligible pay as pre-tax, Roth, after-tax, or a combination of any of these contribution sources, up to the annual IRS dollar limits. Employees determined to be highly compensated may have additional limitations. Sign up online by accessing the "Contribution Amount" section on NetBenefits®, or by calling the Fidelity Retirement Benefits Center at 866-602-0418.

What is the Annual Increase Program?

The Annual Increase Program allows you to establish regular annual increases to your retirement plan contribution amount from your salary. You set the percentage increase and effective date, and that percentage increase

will take effect on that date each year (e.g., 2% increase to your salary deferral every March 1). The Annual Increase Program is a useful tool to help you stay on track for retirement.

What are the contribution limits?

The 2023 IRS contribution limit for pre-tax and Roth sources is \$22,500.

The 2023 Plan established limit for after-tax contributions is \$30,300.

When is my enrollment effective?

Your enrollment becomes effective once you elect a deferral percentage, which initiates deduction of your contributions from your pay. These salary deductions will generally begin within the next 1-2 day periods after we receive your enrollment information, or as soon as administratively possible.

Does the Company contribute to my account?

The Plan helps your retirement savings grow by matching your contributions.

Lazard contributes a maximum of \$13,200 as a Firm matching contribution consisting of: 100% of your elective contributions (excluding catch-up and after-tax contributions), up to 4% of your annual eligible compensation (salary and cash bonus) subject to the IRC compensation limit for calculating contributions (\$330,000 in 2023).

The following are not eligible to receive matching contributions:

- Seasonal Employees

After-tax contributions are not eligible for Company match.

*Employer matching contributions are made on a pre-tax basis and may be taxed at withdrawal.

When am I vested?

You are always 100% vested in your own contributions to the Lazard 401(k) Plan, as well as any earnings on them. You are 100% vested in Lazard's matching contributions

and any earnings after 3 years of credited service.

How do I designate my beneficiary?

If you have not already selected your beneficiaries, or if you have experienced a life-changing event such as a marriage, divorce, birth of a child, or a death in the family, it's time to consider your beneficiary designations. Fidelity's Online Beneficiaries Service offers a straightforward, convenient process that takes just minutes. To make your elections, click on the "Profile" link, then select "Beneficiaries" and follow the online instructions.

What are my investment options?

To help you meet your investment goals, the Plan offers you a range of options. You can select a mix of investment options that best suits your goals, time horizon, and risk tolerance. The many investment options available through the Plan include conservative, moderately conservative, and aggressive funds. A complete description of the Plan's investment options and their performance, as well as planning tools to help you choose an appropriate mix, are available online.

What are "catch-up" contributions?

If you have reached age 50 or will reach 50 during the calendar year January 1 – December 31 and are making the maximum pre-tax/Roth contribution, you can make an additional "catch-up" contribution each pay period, unless you cancel your contribution election at Fidelity NetBenefits®. Going forward, catch-up contribution limits will be subject to cost of living adjustments (COLAs) in \$500 increments.

What if I don't make an investment election?

We encourage you to take an active role in the Lazard Frères & Co. LLC Employees' Savings Plan and choose investment options that best suit your goals, time horizon, and risk tolerance. If you do not select specific

investment options in the Plan, your contributions will be invested in the Vanguard Target Retirement Fund Investor Shares with the target retirement date closest to the year you might retire, based on your current age and assuming a retirement age of 65, at the direction of Lazard Frères & Co. LLC.

If no date of birth or an invalid date of birth is on file at Fidelity, your contributions may be invested in the Vanguard Target Retirement Income Fund. More information about the Vanguard Target Retirement Fund Investor Shares options can be found online.

Target Date Funds are an asset mix of stocks, bonds and other investments that automatically becomes more conservative as the fund approaches its target retirement date and beyond. Principal invested is not guaranteed.

Can I take a loan from my account?

Although your plan account is intended for the future, you may borrow from your vested account balance for any reason.

Learn more about and/or request a loan online, or by calling the Fidelity Retirement Benefits Center at 866-602-0418.

Can I take withdrawals?

Withdrawals from the Plan are generally permitted when you terminate your employment, retire, reach age 59½, become permanently disabled, or have severe financial hardship, as defined by your plan.

If you left your previous employer during or after the year in which you reached the age of 55, you can take a withdrawal from your 401(k) plan. This withdrawal will be considered taxable income, but it won't be subject to the early withdrawal penalty tax. It applies even if you are not yet age 59½. It also applies if you have left your money in your old company's 401(k) plan.

After-tax contributions are eligible to withdraw at any time. When you withdraw

after-tax money in the future, you pay prorated taxes on the value of any investment earnings on your after-tax contributions.

When you leave the Company, you can withdraw contributions and any associated earnings or, if your vested account balance is greater than \$1,000, you can leave contributions and any associated earnings in the Plan. After you leave the Company, if your vested account balance is equal to or less than \$1,000, it will automatically be distributed to you.

Can I move money from another retirement plan into my account in the Lazard Frères & Co. LLC Employees' Savings Plan?

You are permitted to roll over eligible pre-tax contributions from another 401(k) plan, 401(a) plan, 403(a) plan, 403(b) plan or a governmental 457(b) retirement plan account or eligible pre-tax contributions from conduit individual retirement accounts (IRAs) or certain non-conduit individual retirement accounts (traditional IRAs, Simplified Employee Pension plans (SEP), and "SIMPLE" IRA distributions made more than two years from the date you first participated in the SIMPLE IRA). A conduit IRA is one that contains only money rolled over from an employer-sponsored retirement plan that has not been mixed with regular IRA contributions.

You may also roll over eligible Roth contributions from another 401(k) or 403(b) plan.

After-tax contributions from another employer's 401(k) plan are not eligible to be rolled over into the Lazard 401(k) Plan.

Additional information can be obtained online, or by calling the Fidelity Retirement Benefits Center at 866-602-0418.

Be sure to consider all your available options and the applicable fees and

features of each before moving your retirement assets.

Where can I find information about exchanges and other plan features?

Find information about managing your account and learn about loans, exchanges, and more online. In particular, you can access loan modeling tools that illustrate the potential impact of a loan on the long-term growth of your account. You will also find a withdrawal modeling tool, which shows the amount of federal income taxes and early withdrawal penalties you might pay, along with the amount of earnings you could potentially lose by taking a withdrawal. Additional information can be obtained by calling the Fidelity Retirement Benefits Center at 866-602-0418.

More detailed plan information can be found in the summary plan description (SPD) for the 401(k) Plan, which is located on the Lazard HR Portal. You may also request a paper copy of the SPD at no charge from Lazard's Benefits Group. The SPD contains important information about the benefits you (and your beneficiaries) may be entitled to under the 401(k) Plan. The SPD highlights the main features of the 401(k) Plan, but are subject to the terms of the official plan and trust documents.

Investment Options

Here is a list of investment options for the Lazard Frères & Co. LLC Employees' Savings Plan. For up-to-date performance information and other fund specifics, go to www.netbenefits.com.

Target Date Funds

Placement of investment options within each risk spectrum is only in relation to the investment options within that specific spectrum. Placement does not reflect risk relative to the investment options shown in the other risk spectrums.

Investment options to the left have potentially more inflation risk and less investment risk

Investment options to the right have potentially less inflation risk and more investment risk

Vanguard Target Retirement 2020 Fund
Vanguard Target Retirement 2025 Fund
Vanguard Target Retirement Income Fund

Vanguard Target Retirement 2030 Fund
Vanguard Target Retirement 2035 Fund
Vanguard Target Retirement 2040 Fund

Vanguard Target Retirement 2045 Fund
Vanguard Target Retirement 2050 Fund
Vanguard Target Retirement 2055 Fund
Vanguard Target Retirement 2060 Fund
Vanguard Target Retirement 2065 Fund

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment's name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risks associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.

The chart below lists the assigned fund the Lazard Frères & Co. LLC Employees' Savings Plan believes will best fit your diversification needs should you not select an investment option.

Your Birth Date*	Fund Name	Target Retirement Years
Before 1953	Vanguard Target Retirement Income Fund	Retired before 2018
January 1, 1953 - December 31, 1957	Vanguard Target Retirement 2020 Fund	Target Years 2018 - 2022

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories and not on the actual investment options and their holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of 11/30/2022. There may be a number of funds in each category and each may have a significantly different risk profile as compared to other funds within that category as well as compared to funds in other categories on the spectrum. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decisions. The spectrum does not represent actual or implied performance.

► Fidelity BrokerageLink®

Investment Options

Before investing in any mutual fund, consider the investment objectives, risks, charges, and expenses. Contact Fidelity for a mutual fund prospectus or, if available, a summary prospectus containing this information. Read it carefully.

Harbor Capital Appreciation Fund Institutional Class

VRS Code: 892171

Fund Objective: The investment seeks long-term growth of capital.

Fund Strategy: The fund invests primarily in equity securities, principally common and preferred stocks, of U.S. companies with market capitalizations of at least \$1 billion at the time of purchase and that the Subadviser considers to have above average prospects for growth. The stocks of mid and large cap companies in the fund's portfolio are those the Subadviser expects to maintain or achieve above average earnings growth. The fund may invest up to 20% of its total assets in the securities of foreign issuers, including issuers located or doing business in emerging markets.

Fund Risk: Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
-

Lazard/Wilmington Emerging Markets Portfolio Class LZ

VRS Code: 902446

Fund Objective: The Fund seeks long term capital appreciation.

Fund Strategy: The Fund primarily in equity securities, principally common stocks of non-U.S. companies whose principal activities are located in emerging market countries and that Lazard believes are undervalued based on their earning, cash flow or asset values. Diversified emerging-markets portfolios tend to divide their assets among 20 or more nations, although they tend to focus on the emerging markets of Asia and Latin America rather than on those of the Middle East, Africa, or Europe. These portfolios invest predominantly in emerging market equities, but some funds also invest in both equities and fixed income investments from emerging markets.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is willing to accept the higher degree of risk associated with investing in emerging markets.
- Someone who is seeking to complement a portfolio of domestic investments and/or international investments in developed countries with investments in developing countries, which can behave differently.

Footnotes:

- The investment option is a collective investment trust. It is managed by Wilmington Trust, N.A. This description is only intended to provide a brief overview of the fund.
 - This investment option is not a mutual fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 10/28/2019. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 03/30/2007, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool's offering materials for information regarding its' fees and expenses.
-

Lazard/Wilmington International Equity Portfolio Class LZ**VRS Code:** 902447**Fund Objective:** The Fund seeks long term capital appreciation.

Fund Strategy: The Fund primarily invest in equity and equity related securities of issuers that are located in, or that do significant business in, countries other than the U.S. including emerging market countries. Foreign large-blend portfolios invest in a variety of big international stocks. Most of these portfolios divide their assets among a dozen or more developed markets, including Japan, Britain, France, and Germany. These portfolios primarily invest in stocks that have market caps in the top 70% of each economically integrated market (such as Europe or Asia ex-Japan). These portfolios typically will have less than 20% of assets invested in U.S. stocks.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None**Who may want to invest:**

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

Footnotes:

- The investment option is a collective investment trust. It is managed by Wilmington Trust, N.A. This description is only intended to provide a brief overview of the fund.
 - This investment option is not a mutual fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 10/28/2019. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 05/30/2014, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool's offering materials for information regarding its' fees and expenses.
-

Lazard/Wilmington US Equity Concentrated Fund Class LZ**VRS Code:** 902448**Fund Objective:** The Fund seeks long-term capital appreciation.

Fund Strategy: The Fund invests in a concentrated portfolio of investments, primarily in equity securities issued by U.S. companies of any market capitalization. Large-blend portfolios are fairly representative of the overall US stock market in size, growth rates and price. Stocks in the top 70% of the capitalization of the US equity market are defined as large cap. These portfolios tend to invest across the spectrum of US industries and owing to their broad exposure, the portfolios' returns are often similar to those of the S&P 500 Index.

Fund Risk: Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

Footnotes:

- The investment option is a collective investment trust. It is managed by Wilmington Trust, N.A. This description is only intended to provide a brief overview of the fund.
- S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.
- This investment option is not a mutual fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 10/28/2019. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 05/08/2017, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool's offering materials for information regarding its' fees and expenses.

Lazard/Wilmington US Small Mid-Cap Equity Fund Fee Class LZ

VRS Code: 905411

Fund Objective: The Fund seeks long-term capital appreciation and seeks to generate a total return in excess of the benchmark over a full market cycle. The investment objective is a goal and is not a guarantee by the Sub-Advisor.

Fund Strategy: The Fund invests primarily in equity and equity economically tied to securities of small and mid capitalization issuers generally in the United States, including companies not represented in the benchmark. 'Small-mid cap companies' are considered to be securities of companies with market capitalizations between \$350 million and \$10 billion at purchase, or that are included in the Russell 2500 Index.

Fund Risk: The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

Footnotes:

- The investment option is a collective investment trust. It is managed by Wilmington Trust, N.A. This description is only intended to provide a brief overview of the fund.
- The Russell 2500™ Index is an unmanaged market capitalization-weighted index measuring the performance of the 2,500 smallest companies in the Russell 3000 Index.
- This investment option is not a mutual fund.

Metropolitan West Total Return Bond Fund Class I

VRS Code: 844384

Fund Objective: The investment seeks to maximize long-term total return.

Fund Strategy: The fund pursues its objective by investing, under normal circumstances, at least 80% of its net assets in investment grade fixed income securities or unrated securities determined by the Adviser to be of comparable quality. Up to 20% of the fund's net assets may be invested in securities rated below investment grade or unrated securities determined by the Adviser to be of comparable quality. The fund also invests at least 80% of its net assets, plus any borrowings for investment purposes in fixed income securities it regards as bonds.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 03/31/2000. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 03/31/1997, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Vanguard Extended Market Index Fund Admiral Shares

VRS Code: 823791

Fund Objective: The investment seeks to track the S&P Completion Index that measures the investment return of small- and mid-capitalization stocks.

Fund Strategy: The fund employs an indexing investment approach designed to track the performance of S&P Completion Index, a broadly diversified index of stocks of small and mid-size U.S. companies. It invests by sampling the index, meaning that it holds a broadly diversified collection of securities that, in the aggregate, approximates the full index in terms of key characteristics. These characteristics include industry weightings and market capitalization, as well as certain financial measures, such as price/earnings ratio and dividend yield.

Fund Risk: Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The S&P Completion Index contains all of the U.S. common stocks regularly traded on the New York and American Stock Exchanges and the Nasdaq over-the-counter market, except those stocks included in the S&P 500 Index.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/13/2000. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 12/21/1987, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Vanguard Federal Money Market Fund Investor Shares

VRS Code: 845481

Fund Objective: The investment seeks to provide current income while maintaining liquidity and a stable share price of \$1.

Fund Strategy: The fund invests primarily in high-quality, short-term money market instruments. Under normal circumstances, at least 80% of the fund's assets are invested in securities issued by the U.S. government and its agencies and instrumentalities. It maintains a dollar-weighted average maturity of 60 days or less and a dollar-weighted average life of 120 days or less. The fund generally invests 100% of its assets in government securities and therefore will satisfy the 99.5% requirement for designation as a government money market fund.

Fund Risk: *You could lose money by investing in a money market fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to money market funds and you should not expect that the sponsor will provide financial support to the fund at any time.* Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who has a low tolerance for investment risk and who wishes to keep the value of his or her investment relatively stable.
- Someone who is seeking to complement his or her bond and stock fund holdings in order to reach a particular asset allocation.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
-

Vanguard Institutional Index Fund Institutional Shares

VRS Code: 893556

Fund Objective: The investment seeks to track the performance of the S&P 500 Index that measures the investment return of large-capitalization stocks.

Fund Strategy: The fund employs an indexing investment approach designed to track the performance of the S&P 500 Index, a widely recognized benchmark of U.S. stock market performance that is dominated by the stocks of large U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

Fund Risk: Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.

Vanguard Target Retirement 2020 Fund

VRS Code: 841078

Fund Objective: The investment seeks to provide capital appreciation and current income consistent with its current asset allocation.

Fund Strategy: The fund invests in a mix of Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2020 (the target year). The fund's asset allocation will become more conservative over time, meaning that the percentage of assets allocated to stocks will decrease while the percentage of assets allocated to bonds and other fixed income investments will increase.

Fund Risk: The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking an investment option intended for people in or very near retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Vanguard Target Retirement 2025 Fund

VRS Code: 847734

Fund Objective: The investment seeks to provide capital appreciation and current income consistent with its current asset allocation.

Fund Strategy: The fund invests in a mix of Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2025 (the target year). The fund's asset allocation will become more conservative over time, meaning that the percentage of assets allocated to stocks will decrease while the percentage of assets allocated to bonds and other fixed income investments will increase.

Fund Risk: The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Vanguard Target Retirement Income Fund

VRS Code: 847728

Fund Objective: The investment seeks to provide current income and some capital appreciation.

Fund Strategy: The fund invests in a mix of Vanguard mutual funds according to an asset allocation strategy designed for investors currently in retirement. Its indirect bond holdings are a diversified mix of short-, intermediate-, and long-term U.S. government, U.S. agency, and investment-grade U.S. corporate bonds; inflation-protected public obligations issued by the U.S. Treasury; mortgage-backed and asset-backed securities; and government, agency, corporate, and securitized investment-grade foreign bonds issued in currencies other than the U.S. dollar.

Fund Risk: The fund is subject to the volatility of the financial markets, including that of equity and fixed income investments. Fixed income investments carry issuer default and credit risk, inflation risk, and interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Principal invested is not guaranteed at any time, including at or after retirement. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking an investment option intended for people in retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option and looking primarily for the potential for income and, secondarily, for share-price appreciation.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Vanguard Total International Stock Index Fund Admiral Shares

VRS Code: 895879

Fund Objective: The investment seeks to track the performance of a benchmark index that measures the investment return of stocks issued by companies located in developed and emerging markets, excluding the United States.

Fund Strategy: The manager employs an indexing investment approach designed to track the performance of the FTSE Global All Cap ex US Index, a float-adjusted market-capitalization-weighted index designed to measure equity market performance of companies located in developed and emerging markets, excluding the United States. The fund invests all, or substantially all, of its assets in the common stocks included in its target index.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The FTSE Global All Cap ex US Index is part of a range of indices designed to help US investors benchmark their international investments. The index comprises large, mid and small cap stocks globally excluding the US.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/29/2010. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 04/29/1996, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Plan Name: The Lazard Frères & Co. LLC Employees' Savings Plan

Plan #: 38234

Incoming Rollover Instructions

"Rolling over" money into the Lazard Frères & Co. LLC Employees Savings Plan is a three-step process. Please follow these instructions to ensure that this process is completed in a timely and accurate manner. *Please Note:* Failure to follow these instructions may result in a delay in the processing of your request and may jeopardize your ability to roll over your distribution.

Step 1. Request your distribution

Request a direct rollover distribution from your previous eligible retirement plan. See the Rollover Contribution Form for a list of the types of plans or accounts from which rollovers may be made to your employer's plan. There are two distribution check payable options:

Option 1.

The check can be made payable to Fidelity Investments Institutional Operations Company LLC (or FIIOC), for the benefit of (YOUR NAME). The check must be from the distributing trustee or custodian. (Personal checks are not acceptable.)

Note: This type of distribution avoids automatic income tax withholding. Also, it avoids the possible 10% early withdrawal penalty if you are under the age of 59 ½.

Option 2.

If the distribution was originally made payable directly to you, you must send your rollover contribution to Fidelity via a certified check or money order only for the amount you are rolling over. (Personal checks are not acceptable.)

Note: If your distribution is initially received as a check made payable to you, your rollover must be completed within 60 days of receipt of the distribution. Your previous administrator will be required to withhold income taxes. As a result, you will not be able to roll over 100% of your eligible distribution unless you have extra savings available to make up the amount withheld. You must also roll over that amount within 60 days of receipt of your distribution. If you do not make up the amount withheld, that amount will be considered a withdrawal from the previous program and the taxable portion will be subject to ordinary income taxes and possibly a 10% early withdrawal penalty.

Fidelity does not accept wire transfers of funds. You must request a CHECK from your previous plan or IRA.

The check should be mailed directly to you. Once you have received the check, please follow the directions in Step 2.

Step 2. Initiate your rollover request

Please log on to NetBenefits® at www.netbenefits.com or the NetBenefits mobile app which you can get with the below QR code to initiate your request or complete the Incoming Rollover Contribution Form. Please be sure to complete all items, and sign the form if indicated.

Mobile App QR code:

Failing to properly complete the process will result in your transaction not being processed and your check being returned to you. This form and any separate documentation required by your Plan Sponsor will be reviewed through an automated process. Fidelity will not consider or act upon any unrequested documentation or any information provided outside the areas of the form where specific information has been requested.

Please Note: This rollover contribution will be invested based on the investment elections you have on file for rollover contributions to the Plan. If you have not made investment elections for rollover contributions, this amount will be invested in the Plan-designated default investment option. If you wish to make investment elections for your rollover contribution, please do so via NetBenefits or by contacting Fidelity Investments prior to submitting this form.

If you are not sure of the plan type that you are rolling out of, please contact your previous plan sponsor or IRA custodian for verification. An incorrect plan type could invalidate your rollover.

Step 3. Mail the information

Mail (1) the Incoming Rollover Contribution Application and (2) the check to:

FIRST CLASS MAIL WITH STAMP:

Fidelity Investments
Client Service Operations
P.O. Box 770003
Cincinnati, OH 45277-0065

Overnight Address:

Fidelity Investments
Client Service Operations (KC1F-L)
100 Crosby Parkway
Covington, KY 41015

Please include all the information requested. Incomplete forms and the accompanying check will be returned to you and may jeopardize your ability to roll over your distribution.

Once your contribution is accepted into the Lazard Frères & Co. LLC Employees' Savings Plan, you can log on to Fidelity NetBenefits® at www.netbenefits.com to view your rollover contribution and investment election(s). Please allow at least seven business days for processing. If you have any questions about rollover contributions, call **866-602-0418**. Please be sure you have beneficiary information for the Plan on file.

To establish or change your beneficiary information for the Lazard Frères & Co. LLC Employees' Savings Plan, please access www.netbenefits.com.

You should make a copy of the check and the Incoming Contribution Application for your records.

Plan Name: The Lazard Frères & Co. LLC Employees'
Savings Plan

Plan #: 38234

Incoming Rollover Contribution Application

Section One: Participant Information (please print)

The following section must be completed entirely to ensure that your account is properly set up.

Social Security #: -- Hire Date: / / Birth Date: / /

Participant Name (first, MI, last):

Unacceptable rollover sources

The Plan cannot accept money from the following sources: rollovers from beneficiary accounts (other than from a spouse), payments over a life expectancy or a period of 10 or more years, or mandatory age 72* distributions. Also unacceptable are Coverdell Education Savings Accounts (CESAs). In-kind distributions of employer stock are not acceptable; therefore, stock must be sold and the proceeds (including any appreciation realized through the date of distribution) may be rolled over. After-tax contributions may not be rolled into this Plan.

* The change in the MRD age requirement from 70½ to 72 only applies to individuals who turn 70½ on or after January 1, 2020. Please speak with your tax advisor regarding the impact of this change on future MRDs.

Section Three: Investment Elections

I direct Fidelity to invest my rollover contribution into my current investment mix applicable to rollover contributions. If I have not selected an investment mix on my own via NetBenefits® or by telephone, I understand that this rollover contribution will be invested in the Plan's default investment option as directed by my employer.

To make an investment election or to request a fund prospectus please log on to www.netbenefits.com.

Section Four: Participant Certification

I authorize the investment election for this rollover and acknowledge that I have received information detailing my available investment options. I acknowledge that my rollover contribution will be invested according to the investment election on file at Fidelity. I also acknowledge that if I do not already have investment elections on file at Fidelity, my rollover contribution will be invested in my plan's default investment option.

I certify that this rollover amount is composed ONLY of money from acceptable sources listed under Section Two, and I have completed the information regarding the source of this money to the best of my knowledge. Also, if the distribution check was made payable to me, I understand that this rollover must be received and deposited to my account within 60 days of receipt of the distribution. I understand that, once invested, these monies will be subject to the terms that govern the Lazard Frères & Co. LLC Employees' Savings Plan.
